Chairman’s Message to Employees

The excellent reputation of the Ertech group of companies has been built over many years of business success, supported by our values.

Our values act as guiding principles for our operating companies.

Our values have developed a culture that is performance and results oriented. As we continue to grow, the embedding of our values is critical in ensuring that we continue to operate successfully and meet the standards expected by the diverse range of clients we service and the communities in which we operate.

Our Code of Business Conduct (Our Code) sets out the standards we expect from all of our people, in each of our operating companies, within the Ertech group of companies – what we value and how we work with each other and with others.

Our Code is not new, it is only formalising the good principles and practices that already guide our decision making and provides consistent guidelines to help us decide the right thing to do. Integrity and ethical conduct have always been at the heart of our way of doing business. Our Code clarifies the boundaries of what is right and ethical.

It is important that you understand Our Code and your responsibility in adhering to it.

Our Values, Our Way and Our Code provide a unifying bond across all of our operating companies, providing a solid foundation for our future success.

Please take time to read and understand Our Code and think about how it relates to you and your work.

Gavin Miller
Chairman
Ertech Holdings

Introduction

Ertech Group Framework

The Ertech Group is a values driven organisation which operates within an integrated framework of values, principles and ethical obligations designed to guide business performance and set clear expectations for internal culture and business conduct.

Our Code of Business Conduct (Our Code)

The business principles we follow to demonstrate and ensure our integrity to all stakeholders.

- Individually and with fellow employees
- With our community and governments
- With our clients and business partners
- When using business resources

1 Working with Integrity – Understanding and Using Our Code

1.1 Purpose of Our Code

Our Code guides business conduct for all employees and those who work on behalf of the Ertech Group. It builds on Our Values and Our Way to ensure we uphold ethical business standards and meet or, where less stringent than our standards, exceed applicable legal and other requirements.

Our Code has been set out to cover aspects of decision making concerning personal conduct and working with:

- Fellow employees
- Clients
- Government
- Communities
- Business partners
- Business resources

Our Code and Values underpin everything we do and must always be upheld. There are times when difficult decisions need to be made. You can be confident that following Our Code will result in making the right decisions and building a business in which we can all be proud.

Our Code references relevant Policies and Procedures. It covers employees, contractors and consultants or other parties working on our behalf under a contractual obligation. For simplicity, we refer to this group as Employees in this document. Suppliers and Joint Ventures are not covered by it, but we encourage the use of external parties that have similar codes.

Our Code cannot cover every law and regulation that we are bound by but does set our minimum standard. If you are unsure about a situation, please seek advice. Our Code does not remove the need for us all to exercise good judgment – it just makes it easier for every one of us to do so. We all have a responsibility to work with integrity and good judgment, as well as within the law.

All Employees will be fully supported in applying Our Code and any form of retaliation and retribution against individuals doing so will not be tolerated. We ask you to report any breaches of Our Code immediately.

Please make yourself familiar with Our Code and refer to it whenever you are seeking guidance. Following Our Code and Our Way will ensure we can maintain the values that we hold dear and ensure we achieve our goals.

1.2 Responsibilities of Employees of the Ertech Group

When working for the Group, you agree to uphold a commitment to respecting the values of the Group, the requirements of Our Code, and the policies, standards and procedures that apply to your position and work.

All Employees must adhere to the principles and requirements contained in Our Code and take reasonable steps to ensure that other individuals or groups that conduct business on behalf of the Ertech Group, including contractors, agents and consultants, do likewise. Employees must also have a detailed understanding of Group policies, standards and procedures that apply to their work. These are available on the Intranet.

Queries on the meaning of Our Code or concerns about actual or potential breaches must be promptly raised.

It may seem easier to keep silent or look the other way, but our commitment to working with integrity means we must never ignore an issue that needs to be addressed.

Many inappropriate actions are caused not through deliberate dishonesty or negligence, but by someone simply not having the proper information, not understanding the information they have or through a desire to “just get things done”.

Remember, the longer we wait to resolve a concern, the worse it may become. If you are in doubt about what to do or whether to speak up, it may help to do the Business Conduct Quick Test by asking yourself some simple questions:

- **The values test:** Does it fit with our values?
- **The safety test:** Could it directly or indirectly endanger someone or cause him or her injury?
- **The law test:** Is it legal and in line with our policies and standards?
- **The conscience test:** Does it fit with my personal values?
- **The newspaper test:** If the story appeared in the paper, would I feel comfortable with the decision?
- **The family test:** What would I tell my partner, parent or child to do?
- **The ‘feel’ test:** What is my intuition or ‘gut feel’? If it ‘feels’ bad, then it probably is bad!

Failing any of the above ‘tests’ indicates that you need to talk with someone about the concern you have. If you have any doubts about the proper course of action, always seek advice.

1.3 Responsibilities of Those Who Supervise Others

The Chief Executive Officer of Ertech is responsible to the Ertech Holdings Board for the ethics and culture of the Group. Within each business the MD and their management and supervisors have a responsibility to support the Ertech CEO in upholding a high standard of business conduct. The Ethics and Compliance Committee will assist the Ertech CEO with compliance to Our Code.

Supervisors and managers must take all reasonable steps to ensure that the people for whom they are responsible are aware of and uphold the behaviours outlined in Our Code.

This includes:

- Establishing internal processes that address risk areas in relation to business conduct and ensuring that actual or potential breaches are appropriately investigated and handled
- Ensuring all business conduct breaches are reported to the Ethics Committee (ECC).
- Taking or recommending appropriate actions to address business conduct issues
- Always demonstrating behaviour consistent with Our Code
- Undertaking activities to foster a culture in which Employees understand their responsibilities; feel comfortable raising concerns without fear of retaliation; are encouraged to work according to our values; and are rewarded for such behaviour
- Making certain that mandatory Ertech Group policies, standards and procedures are accessible and understood
- Embedding the requirements of Our Code into existing systems; for example, performance management processes, employment and supply contracts, inductions, and industrial agreements
- Responding promptly and seriously to Employees’ legitimate concerns and questions about business conduct issues and seeking further assistance if required.

Ethics and Compliance Committee (ECC)

The Ethics and Compliance Committee (ECC) consists of the Chairman, the Ertech CEO and at least one of the Non-Executive Directors (NED’s). It assists the Ertech CEO in meeting his responsibilities by advising on matters affecting the values and culture of the Group.

The ECC meets regularly and assists business and functional leaders in assessing acceptable outcomes in cases where adjudication is required. It also oversees the process for handling breaches of business conduct, as well as monitoring and reporting on emerging policy issues and compliance with Our Code.

1.4 Raising a Business Conduct Concern

Raising a business conduct concern ultimately protects the Group, our colleagues, and our stakeholders. If you think a decision or action is out of step with our values or you have a concern about complying with Our Code, a Group policy, standard or procedure, or any other Ertech Group requirement or the law, you have a right and a responsibility to raise that concern.

Concerns should be handled in accordance with our [H-HRM-PRO-103-Manage Dispute Resolution Procedure](#). This describes a confidential process where you:

- Initially raise concerns or issues of clarification with your manager or supervisor
- Contact your Human Resources; Health, Safety, Environment (HSE) representative or other member of senior management
- Refer the matter to the ECC if it is not possible to resolve or if it relates to a potential or an actual instance of fraud.
- Make a report pursuant to the Whistleblower Policy ([H-MGMT-POL-054](#)).

You do not need to be directly affected by an issue in order to raise it – you can report a concern that you have become aware of through your work.

While everyone is encouraged to raise a business conduct query or concern, we consider such action done with mischievous or malicious intent to be against our values – all issues raised should be genuine.

Safeguarding against retaliation

Our Whistleblower Policy ([H-MGT-POL-054](#)) specifically protects employees from any form of punishment, disciplinary or retaliatory action being taken for raising, or helping to address, a genuine business conduct concern. Retaliation is grounds for disciplinary action, including dismissal in accordance with our [H-HRM-PRO-102-Discipline and Counselling Procedure](#). The procedure outlines the specific steps and responsibilities required to deal with any issues raised.

1.5 Breaches of Our Code

Failing to comply with Our Code is viewed as a serious matter that must be addressed in accordance with the Discipline and Counselling Procedure.

Supervisors and managers will be held accountable not only for their own business conduct, but also for that of their staff. Breaches will be dealt with in accordance with the Discipline and Counselling Procedure.

The nature of any action will depend on the seriousness of the breach and other relevant circumstances. Examples of disciplinary action that may be taken include a discussion with a manager about desired behaviour, a verbal or written warning, counselling on misconduct, transfer to a position with a lower level of responsibility, suspension, and dismissal.

If the situation involves a violation of law, the matter may also be referred to the appropriate law enforcement authorities for consideration.

In addition to failing to comply with Our Code, misconduct that may result in discipline includes:

- Requesting others to breach a mandated behaviour from Our Code
- Failing to raise promptly, known, or suspected breaches of Our Code, policies or procedures
- Failing to cooperate in investigations of possible breaches regarding your own behaviour
- Retaliation against another person for reporting a business conduct concern
- Failing to demonstrate leadership and diligence to ensure compliance with Our Code and the law.

2 Working with Integrity – Individually and with Fellow Employees

2.1 Health, Safety and the Environment (HSE)

We are committed to providing and maintaining safe work sites for Employees, subcontractors and others. Our safety motto is “no harm in doing it right”, which encapsulates our commitment to eliminating harm from our workplace. We are committed to conducting our business activities in a way that minimises environmental risks and adverse effects on the environment.

We are committed to achieving best practice in HSE as reflected in [H-SYS-POL-002-Safety and Health Policy](#) and our [H-SYS-POL-003-Environmental Policy](#).

Across the group, our HSE practices are governed by mandatory policies and procedures that apply to all Employees. Managers are accountable for their implementation and for ensuring that supporting systems are in place.

Within each business, health and safety targets are set and performance against these targets is closely monitored, measured and reported on a continual basis.

Personal security

Protecting the security of our people and workplaces is critical. Employees must understand and follow site and business security procedures and promptly report any circumstances that appear to represent a threat to the safety of themselves, other people, or our assets.

You must always follow the HSE system that has been put in place for your worksite. There are some common “Do’s and Don’ts”.

DO

- ✓ Comply with the requirements of our mandatory HSE procedures, and assist those working with you to do the same
- ✓ Ensure you identify, assess, and take steps to control HSE hazards associated with your work
- ✓ Stop immediately any work that appears to be unsafe or may contribute to a significant environmental or community incident
- ✓ Use the personal protective equipment required for the task you are undertaking
- ✓ Handle and dispose of all materials properly, safely, and lawfully
- ✓ Make sure you know what to do if an emergency occurs at your workplace and that visitors are familiar with emergency procedures
- ✓ Report to your manager any HSE hazard or incident so that appropriate action can be taken to prevent, correct or control those conditions. Never assume that someone else will report a risk or concern and that you therefore do not need to report it
- ✓ Give due consideration to HSE Alerts
- ✓ Only engage sub-contractors, suppliers, or joint venture partners that have been assessed on their HSE risks, processes, and performance.

DON'T

- ✗ Undertake work unless you are trained, competent, medically fit, and sufficiently rested and alert to do so
- ✗ Undertake work when you may be impaired by alcohol or drugs (illegal, legal, or prescribed)
- ✗ Use or tolerate threats, intimidation, or other violence at work
- ✗ Ignore a potential or actual environmental incident or assume that someone else will report it
- ✗ Undertake work that has the potential to impact on the environment unless you are authorised, trained and competent to do so.

2.2 Drug and Alcohol (D&A) Use

Our aim is to maintain a work environment that is free from harm arising from the misuse of drugs or alcohol. Our clients and other stakeholders therefore receive an ongoing assurance that our personnel and subcontractors are not impaired by the use of drugs or alcohol at the workplace.

Our [H-MGT-POL-015 -Drug and Alcohol Policy](#) applies to all worksites.

Alcohol must not be offered or consumed at any worksite, including an office or operational site, with the exception of operations that offer on-site wet messes or canteens and at designated work functions. If you consume alcohol during working hours, you must not return to work for that shift.

Smoking is prohibited in all our buildings. At some sites smoking is permitted in designated smoking areas. To prevent exposure to passive smoking a designated smoking area must be clearly identified, isolated from any adjacent areas and properly ventilated.

The possession or use of illegal substances on our premises, at our functions or in conjunction with any business dealing is prohibited. You should make yourself familiar with the drug and alcohol testing and support programs.

Breaches of the Drug and Alcohol Policy may result in misconduct proceedings. Employees may access our Employee Assistance Program (EAP) in accordance with our [H-HRM-POL-024-Employee Assistance Policy](#).

DO

- ✓ Report to work fit and ready to carry out assigned work
- ✓ Recognise and take appropriate action on the early symptoms of a dependency condition exhibited either by yourself or a person that you supervise
- ✓ Treat the matter of dependency of fellow Employees confidentially. Raise it with your supervisor, manager, or Human Resources representative
- ✓ Advise your supervisor, manager or HSE Manager if you are working in a safety sensitive job or location, and you are taking prescribed drugs or are receiving medical treatment for any dependency that has the potential to affect your ability to undertake your job safely. Further advice can be sought if necessary
- ✓ Cooperate with drug testing programs.

DON'T

- x Undertake work (including driving to and from work and attending work functions) when you are impaired by alcohol or drugs (illegal, legal, or prescribed)
- x Consume, offer, or make available alcoholic beverages at work sites in breach of Policy.
- x Possess, use, or transfer illegal drugs or other illegal substances on Ertech Group premises
- x Ignore a case of substance abuse if you witness one

2.3 Equality in Employment

We will treat all employees fairly and make employee related decisions based on merit. We recognise our legal obligations with regard to unlawful discrimination based on gender, marital status, pregnancy, race, age, family responsibility, sexual preference, impairment, or political conviction.

All Employees must understand and comply with our [H-HRM-POL-020-Equal Employment Opportunity Policy](#), and the [H-HRM-POL-046-Working with Respect Policy](#).

These set out our commitment to equality in employment, being free from discrimination and making development opportunities and promotion based on merit.

Together, you and your supervisor or manager is responsible for ensuring that you:

- Know what is required of you in your job
- Have open, constructive performance conversations
- Are supported to help develop your work-related capabilities
- Are fairly treated with respect and dignity and without discrimination

DO

- ✓ Demonstrate fairness and respect in all your dealings, consistent with Our Code
- ✓ Ensure employment-related decisions, including recruitment, promotion, training and development, compensation, and termination of employment, are based only on merit and business considerations
- ✓ Contact your Human Resources representative if you have any questions about the potential applicability of laws.

DON'T

- ✗ Tolerate unlawful discrimination of any type
- ✗ Make decisions based on attributes unrelated to job performance.

2.4 Working with One Another

We will maintain a positive working environment where all employees are treated with respect, free from harassment, bullying and victimisation.

All Employees must understand and comply with our [H-HRM-POL-020-Equal Employment Opportunity Policy](#), and the [H-HRM-POL-046-Working with Respect Policy](#).

Harassment is an unwelcome action, conduct or behaviour that a reasonable person would find unwelcome, humiliating, intimidating or offensive.

Bullying is repeated and unreasonable behaviour directed towards an individual or group of individuals that is unreasonable and creates a risk to health and safety.

Repeated behaviour refers to the persistent nature of the behaviour and can involve a range of behaviours over time.

Unreasonable behaviour means behaviour that a reasonable person, having considered the circumstances, would see as unreasonable, including behaviour that is victimising, humiliating, intimidating or threatening.

Harassment and Bullying is based on the perception of the person to whom the behaviour is directed, even if the behaviour was not intended to cause offence.

Harassment and bullying are illegal and may lead to penalties for individuals and the organisation.

While we must always obey the applicable laws and regulations governing the fair and proper treatment of others (including our Employees), we seek to go beyond simply meeting the letter of the law and, instead, be guided by Our Code.

All our people are responsible for ensuring that they consider the implications of their behaviour at all times and take necessary corrective steps.

If you have any queries, always seek advice from your manager.

DO

- ✓ Treat everyone with respect and dignity
- ✓ Speak up and tell a person if you are upset by his or her actions or behaviour, explain why and ask the person to stop. If you are not comfortable in doing this, or if this approach fails to resolve an issue, speak to your supervisor, manager, or Human Resources representative.
- ✓ Foster a work environment free from harassment.

DON'T

- ✗ Behave in a manner that could reasonably be perceived as offensive, insulting, intimidating, malicious or humiliating
- ✗ Assume that what is acceptable in one culture is equally acceptable in another
- ✗ Make jokes or comments that are racial, ethnic, religious, sexual, or related to age, physical appearance, or disability

- x Engage in sexual harassment: for example, unwelcome sexual advances, requests for sexual favours, inappropriate or unwelcome physical contact or sexual suggestions
- x Distribute or display offensive material, including inappropriate pictures or cartoons
- x Spread malicious rumours or use Ertech Group resources to transmit derogatory, discriminatory, abusive, or harassing material.

2.5 Personal Information and Privacy

We are committed to protecting the privacy of individuals. The protection of personal information is required by law. All Employees and officers of the Ertech Group are expected to comply with legal requirements and the Ertech Group’s policies and procedures concerning the protection of personal information.

All Employees must understand and comply with our [H-MGT-POL-036-Privacy Policy](#).

Personal information means information or data relating to an individual who can be identified by that information or data alone, or in combination with other information or data that is in the Ertech Group’s possession.

We will only collect personal information in a lawful and fair manner, and in a way that is not unreasonably intrusive. We will not use or disclose such information for any purpose other than the purpose for which it is collected.

Data, information, or electronic communications created or stored on Ertech Group computers or other electronic media, including personal information, are Ertech Group records and are, therefore, Ertech Group property. To the extent permitted by law, the Ertech Group reserves the right to monitor or audit employee use of its information systems, and access electronic communications or information stored on Ertech Group systems for maintenance, business needs or to meet a legal or policy requirement.

If you have any doubt about the handling of personal information, consult your manager.

DO

- ✓ Where it is reasonable and practical to do so, only collect personal information directly from the individual concerned
- ✓ Comply with all legal requirements that apply to the collection, use and retention of personal information. Only collect, use, and retain personal information that is necessary for legitimate activities and functions
- ✓ Use personal information only for the purpose for which it was collected (including related purposes), unless otherwise approved by the relevant individual
- ✓ Utilise safeguards to help protect personal information against such risks as loss or destruction or unauthorised access to or use, modification, or disclosure of data
- ✓ Have a system to help ensure that personal information is not retained longer than legally required or necessary to meet the business reason for which the information was collected
- ✓ Maintain the accuracy of personal information.

DON'T

- x Access personal information unless you have appropriate authorisation and a clear business need for that information
- x Provide personal employee information to anyone inside or outside the Ertech Group without proper authorisation
- x Conduct reference or security checks without proper authorisation or the consent of the individual.

3 Working with Integrity – With Our Community and Governments

3.1 Engaging with our Communities

Our ability to build relationships and work collaboratively and transparently with our host communities is critical to our long-term success. Our aim is to be valued and respected by the communities in which we operate. We do this by engaging regularly, openly and honestly with people affected by our operations, and by taking their views and concerns into account in our decision-making.

All Employees must understand and comply with our [H-MGT-POL-005-Corporate Social Responsibility Policy](#). We understand that our business can potentially impact local communities.

We seek to positively impact the communities in which we work. We value local community knowledge and perspectives and will engage and train local labour and businesses where possible.

To assist in managing our engagement with local communities, where applicable, sites are required to have a community relations plan, including a community complaint register to record and track the management of community concerns.

Sponsorship and Charitable Donations

We will support local community groups and charities through sponsorship programs and donations provided they comply with the law and meet the ethical standards of the Ertech Group.

In all cases, sponsorship programs and donations should be approved in accordance with applicable requirements and according to documented, approved, and transparent assessment processes in accordance with the [H-MGT-PRO-017-Manage Sponsorship and Donations](#) procedure.

If you are responsible for sponsorship programs and donations, you should ensure that appropriate due diligence is conducted before approving the commitment of funds or services. Preference should generally be given to incorporated organisations and recognised non-government organisations that have a presence in the community concerned.

DO

- ✓ Through our business dealings uphold the human rights within the sphere of influence of our employees, contractors, suppliers, and the people in the communities in which we operate
- ✓ Seek to identify and consider the concerns and expectations of all stakeholders and especially those most affected by our operations and consult with them in decision-making
- ✓ Approve sponsorship programs and donations in accordance with the procedure
- ✓ Regularly monitor and evaluate the effectiveness of community sponsorship programs and donations
- ✓ Investigate concerns and complaints and report outcomes back to relevant stakeholders.

DON'T

- x Offer a community sponsorship program or donation that is, or may be implied to be, in exchange for, or contingent upon, awarding contracts or to inappropriately influence individuals to make a decision in the Ertech Group's favour.
- x Intentionally favour individuals from one political, religious, or ethnic group based on their membership of that group. The exception to this is where such action supports an approved or legally required program of positive discrimination (for example, to assist historically disadvantaged groups in the community)
- x Contribute to any religious organisation for religious purposes. Projects implemented by religious organisations that provide services to the general community may be acceptable, provided they comply with all other applicable Ertech Group and legal requirements.

3.2 Working with Governments

The Ertech Group respects the authority of governments wherever we conduct business. We will maintain open and constructive relationships with governments and their agencies, officials, and personnel.

Our ability to conduct business is affected by government decision-making, and we seek to have open and constructive relationships with governments. Employees and others who provide information to governments on behalf of the Ertech Group must ensure that all information is accurate and appropriate for the purpose. Errors or omissions may damage the Ertech Group’s reputation and credibility and could be illegal.

DO

- ✓ Be truthful, accurate, cooperative, and courteous when dealing with government or regulatory agency officials
- ✓ Notify and seek advice from your business’s most senior manager representative if you receive a non-routine request from a government or regulatory agency official.

DON’T

- ✗ Offer anything of value to a public official to obtain an actual or perceived improper advantage
- ✗ Fail to meet proper and legal government contract requirements, such as failing to perform required tests and inspections, without the written approval of the authorised public official
- ✗ Attempt to obstruct the lawful collection of information, data, testimony or records by appropriately authorised government or regulatory officials or hinder the lawful and proper provision of such information by another employee
- ✗ Take action against anyone who lawfully and properly cooperates with government or regulatory agencies.

BE CAUTIOUS OF

- ! Accepting information about a government’s competitive selection of a supplier or a competitor’s bid or proposal (unless the government has specifically and lawfully authorised the release of the information)
- ! Offering or accepting gifts or hospitality or requests to reimburse costs when dealing with public officials. This will protect the reputation of the Ertech Group against allegations of improper behaviour
- ! Negotiating or arranging for the employment of a public official or public official’s family members while the official has the ability to influence decision-making impacting on the Ertech Group.

3.3 Political Contributions and Activities

We do not make direct contributions in cash or in-kind to any political party. However, we will engage in the democratic process by participating in events with political parties.

All Employees must understand and comply with our [H-MGT-POL-005-Corporate Social Responsibility Policy](#).

It is acceptable for the Ertech Group to express its views to governments on subjects that affect our interests and operations. This must be done in a manner that adheres to high standards of ethics and complies with the letter and the spirit of the law.

Employees and other representatives may also be involved in events or activities organised by a political party, politician or candidate for public office provided that:

- Such involvement is for policy dialogue and business briefing purposes only
- The activity is formally registered with, and approved in advance by, the relevant business CEO.
- Activities that require registration and approval in advance include:
 - Paying for tables at functions or events sponsored by or associated with any political party, politician, or political candidate, for example, a political party business observer program
 - Sponsoring research by ‘think tanks’ affiliated or linked to political parties
 - Being involved with any event organised by or on behalf of a political party for which a fee is paid.

Examples of prohibited political activities or contributions include:

- Sponsorship or hosting of functions or events organised by or associated with any political party, politician, or candidate for public office with the explicit purpose of raising funds
- Free or discounted use of Ertech Group premises or equipment as an in-kind donation to a political party
- Paying wages or salaries (including on-costs) of our employee working for a party or candidate during normal working hours (but not if the employee takes paid leave to work for the party or candidate).

The Ertech Group recognises Employees' rights to participate as individuals in the political process. You will need to apply for leave if you are running for office or carrying out the duties of public office during normal working hours. Such participation, including contributions of time and money, is conducted entirely on your own account and your political opinions are not to be presented as being representative of the Ertech Group.

DO

- ✓ Conduct business dealings on behalf of the Ertech Group with any political party, politician, or candidate for public office in accordance with the Code and all applicable laws and regulations relating to corporate participation in public affairs
- ✓ Seek appropriate approvals for involvement in any business-related event or activity organised by or on behalf of a political party or candidate and be transparent when undertaking such activities
- ✓ Be mindful of the Ertech Group's reputation and how the public would perceive your actions when engaging with public officials
- ✓ Make it clear that you are speaking on your own behalf and not on behalf of the Ertech Group when you engage in personal political activity
- ✓ Discuss with your supervisor or manager in advance if you plan to seek or accept a public office. If this may bring about a conflict of interest, you must document this in writing.

DON'T

- ✗ Make a cash or an in-kind contribution or incur expenditure using an Ertech Group account to any political campaign, political party, political candidate, elected official or any of their affiliated organisations
- ✗ Use or allow to be used any Ertech Group assets or resources for any political campaign, political party, political candidate, elected official or any of their affiliated organisations
- ✗ Use charitable donations as a substitute for a political payment
- ✗ Use your position in the Ertech Group to try to influence any other person to make political contributions or provide support to any political parties or politicians.

BE CAUTIOUS OF

- ! Any representations to public officials that are under consideration – remember that such activity is highly regulated by law.
- ! Any political activity in which you are involved personally – you must make it clear to others that you are not representing the Ertech Group.

4 Working With Integrity – With our Clients and Business Partners

4.1 Bribery and Corruption

Bribery and corruption in all forms will not be tolerated in the Ertech Group. We are committed to acting honestly with all clients and business partners.

All Employees must understand and comply with our [H-MGT-POL-004-Anti-Corruption Policy](#) as well as the [H-MGT-PRO-015-Manage Gifts](#) procedure and [H-MGT-PRO-016-Manage Hospitality](#) procedure.

We prohibit authorising, offering, giving, or promising anything of value directly or indirectly (via a business partner) to a public official, or client representative, to influence their actions or decisions, or to anyone to induce them to perform their work disloyally or otherwise improperly.

A breach of anti-corruption laws is a serious offence, which can result in fines for the Ertech Group and Employees and the imprisonment of Employees. Even the appearance of a breach of these laws can have a serious reputational impact on the Ertech Group. A breach of our anti-corruption policy is also a serious offence, which can result in disciplinary action up to and including dismissal.

Since the Ertech Group cannot cause or authorise third parties to engage in conduct when acting on our behalf that we cannot engage in directly, no such person or entity (called 'business partners' in this Code) may be hired or otherwise partnered with if there is any material risk that they or it will violate applicable anti-corruption laws or the prohibitions in our policies.

DO

- ✓ Obtain prior authorisation before offering, promising, or giving anything of value
- ✓ Conduct due diligence in selecting and engaging business partners as required by our Anti-Corruption policy
- ✓ Communicate our anti-corruption requirements to business partners and ensure that business partner activities are appropriately monitored.
- ✓ Ensure that all expenditures are accurately recorded in reasonable detail in our books and records
- ✓ Immediately report any corruption concerns so that appropriate action can be taken.

DON'T

- x Authorise, undertake, or participate in schemes to give any improper benefit, kick-back or secret commission to anyone
- x Offer, promise, or give a cash or cash equivalent payment of any kind to a public official or client representative unless prior authorisation is received
- x Establish a 'slush' fund
- x Use a business partner to do something that the Ertech Group is prohibited from doing itself
- x Give anything of value to a business partner when there is a material risk that the business partner, in turn, will engage in prohibited conduct on our behalf
- x Personally pay for a gift, hospitality, or other thing of value in order to avoid complying with our requirements.

BE CAUTIOUS OF

- ! Compensation to a business partner that is disproportionate to the services provided
- ! Any request to make a payment that appears suspicious or to a name not related to the transaction, including, but not limited to, a charity or foundation
- ! Background information about existing or potential business partners that suggests they may be undertaking activities that could be considered improper.

4.2 Conflict of Interest

The Ertech Group respects the privacy of its Employees. However, you must ensure your personal activities and interests do not conflict with your responsibility to the Ertech Group or compromise, or appear to compromise, the quality of your work performance, your commitment to your work and your ability to make impartial business decisions.

All Employees must understand and comply with our [H-MGT-POL-004-Anti-Corruption Policy](#).

A conflict of interest arises when an employee is in a decision-making position and participates in an activity or acquires another interest or loyalty that jeopardises, or could jeopardise, his or her judgment, objectivity, or independence.

Conflicts of interest can arise in many ways, but common examples involve:

- Holding outside jobs and affiliations

- Jobs and affiliations of close relatives
- Investments
- Offering or accepting gifts and hospitality
- Pursuing Ertech Group business opportunities for personal gain.

Business dealings and personal relationships that cause or may cause conflicts of interest or create the appearance of a conflict or potential conflict with an individual's obligations to the Ertech Group must be avoided.

You must excuse yourself from any decision-making process where you have an interest that influences, or may be perceived as influencing, your ability to make an objective decision and to fulfil your responsibilities to the Ertech Group.

You must promptly advise your supervisor or manager in writing of any outside activities, financial interests or relationships that may involve you either in an actual conflict of interest or the appearance of one.

Your supervisor or manager will ensure that the matter is properly reviewed. This will include considering whether it is appropriate for you to resume any discussions or activities that involve the conflict.

DO

- ✓ Conduct all business relationships in a professional, impartial, and competitive manner
- ✓ Avoid business dealings and personal relationships that cause or may cause conflicts of interest (actual or potential) or create the appearance of a conflict with your obligations to the Ertech Group
- ✓ Advise your supervisor or manager in writing of any outside activities, financial interests or relationships that may either involve you in a conflict of interest or the appearance of one
- ✓ Obtain appropriate approval before accepting an officer or director position with another company or organisation
- ✓ Exercise good judgement when deciding to offer or accept gifts and hospitality
- ✓ Excuse yourself from any decision-making process where you have an interest that influences, or is perceived as influencing, your ability to make an objective decision and to fulfil your responsibilities to the Ertech Group.

DON'T

- ✗ Hold positions in organisations that have business dealings with the Ertech Group (including competitors, customers, or suppliers, or your own or family business) if you are in a position to influence transactions or if the relationship itself creates an actual, potential, or perceived conflict of interest
- ✗ Hire, promote or directly supervise a close relative, unless this has been specifically authorised
- ✗ Offer or accept gifts or hospitality from an organisation involved in a bid or tender with the Ertech Group
- ✗ Request a personal gift or hospitality of a supplier, customer, or partner. This includes both direct requests and giving the impression that the offering of a gift or hospitality would be appropriate or desirable
- ✗ Misuse Ertech Group resources or your position or influence at the Ertech Group to promote or assist an external activity
- ✗ Personally pursue or undertake any opportunities the Ertech Group could have an interest in and that are identified through your position or use of Ertech Group information or property.

4.3 Gifts and Hospitality

Offering or accepting gifts and hospitality is a legitimate contribution to building good business relationships. It is important, however, that gifts and hospitality never unduly influence business decision-making or cause others to perceive an undue influence.

All Employees must understand and comply with our [H-MGT-POL-004-Anti-Corruption Policy](#) as well as the [H-MGT-PRO-015-Manage Gifts](#) procedure and [H-MGT-PRO-016-Manage Hospitality](#) procedure.

Ertech Group Employees must exercise the utmost care when offering or accepting gifts and hospitality in order to protect their own and our reputation against allegations of improper behaviour and to ensure that bribery laws are not breached.

Offering or accepting gifts and hospitality must always be done in accordance with the law and local business practice – for example, where the exchange of gifts is customary, and the gifts are appropriate for the occasion – and be disclosed to your supervisor or manager.

In principle, gifts and hospitality should only be offered or accepted if they are occasional and of modest value. Refer to the Anti-Corruption Policy for guidance on determining what is “occasional and modest value”.

As a guide, the higher the monetary value of the gift or hospitality, the greater the level of transparency that is required. All gifts and hospitality must be disclosed to your supervisor or manager.

Tips (or gratuities) should be paid according to local customs and practices, and not be excessive or more than local standards.

Gifts or hospitality of any kind must not be solicited from a supplier, customer or other party with whom the Ertech Group conducts business.

As a general rule, offers to Employees of sponsored travel are to be rejected (Frequent flyer redemption travel is not considered an offer). If there is a valid business purpose to attend an event or function, the Ertech Group will pay for any travel and/or accommodation costs. Where practical alternative means of travel or attendance at the Ertech Group expense are not available, you should refer the matter to a senior executive for consideration. Sponsored travel is not made acceptable by being undertaken during a period of leave.

In some limited circumstances, as part of an approved Ertech Group-hosted event or sponsorship program, the cost of travel and accommodation associated with hosting our business partners may be met by the Ertech Group where there is a clear business case to do so, and where this does not breach the business partner’s policy.

It is prohibited to offer or accept:

- Loans, cash, or personal cheques
- Product or service discounts that are not available to all Employees, unless arranged by an approved social club
- Gifts, favours or any form of hospitality or entertainment in return for, or in exchange for, business services or information. (Such action may create an actual or perceived conflict of interest or may give the impression of anti-competitive behaviour.)
- Gifts or hospitality of an inappropriate nature (for example, sexually oriented) or at inappropriate venues
- Gifts and hospitality not designed to further a valid business purpose or relationship.

DO

- ✓ Ensure gifts and hospitality are modest. Ask what the recipient’s employer’s policy is, and take that into consideration in offering gifts or hospitality
- ✓ Clearly articulate Ertech Group practices on the offering and accepting of gifts and hospitality at the beginning of new business relationships, especially where cultural norms may be different to those outlined in Our Code
- ✓ Assess the potential for a conflict of interest when offering or accepting gifts or hospitality
- ✓ Be prepared to decline politely any offer not in line with our practices
- ✓ Regard gifts or hospitality received through an intermediary as the same as those given directly.

DON'T

- ✗ Accept or offer prohibited gifts and hospitality
- ✗ Accept from, or offer to, any organisation involved in a bid or tender with the Ertech Group gifts, favours, or hospitality. (This does not include working meals provided by advisors or consultants acting for the Ertech Group)
- ✗ Request a gift or hospitality of any kind from a supplier, customer, partner, or other party with whom the Ertech Group does business. (This includes both direct requests and giving the impression that the offer of a gift or hospitality would be appropriate or desirable)
- ✗ Personally pay for a gift or hospitality in order to avoid complying with our standards.

BE CAUTIOUS OF

- ! Exchanging gifts or entertainment with representatives of our competitors, as such action may create an actual or perceived conflict of interest or may give the impression of anti-competitive behaviour.

4.4 Business Travel

We seek to provide those travelling for business purposes with a reasonable level of service and comfort that is cost-effective and convenient, and that protects the health and safety of the traveller. The Ertech Group will cover the cost of moderate expenses incurred provided that valid invoices or records are supplied.

All Employees must understand and comply with our [H-HRM-POL-029-Travel Policy](#). All international travel requires the approval of the CEO.

All business travel bookings, where possible, should be made through the Ertech Group’s contracted travel provider using preferred carriers, hotels, ground transport services, and car rental companies. This process helps deliver a service to the Ertech Group that is cost-effective, efficient and meets our safety criteria. It also helps us to locate all travellers in the event of an emergency.

When travelling, individuals have prime responsibility for their own health, safety, and security.

All travel should be economy/coach class unless specific approval for business class travel has been given by your business’ CEO.

A business trip can be extended by personal travel, providing this is explicitly approved by your manager in advance of the trip.

Personal travel, other than as extensions to business trips, must not be booked through our designated travel provider or charged to Ertech Group credit cards.

Frequent flyer program benefits may be used by employees for personal travel.

The Ertech Group will reimburse an employee for all reasonable travel and entertainment-related expenses incurred in the conduct of business travel or entertainment that can be substantiated with valid invoices or other legitimate records. The Ertech Group does not normally provide Employees with daily travel allowances.

Queries relating to relocation travel should be referred to your local Human Resources representative.

DO

- ✓ Have your travel approved by your supervisor or manager prior to commencing travel
- ✓ Use the contracted travel provider for all business travel bookings
- ✓ Prepare for international travel by seeking destination-specific travel safety and health advice, vaccinations and travel kits
- ✓ Ensure all items claimed are legitimate business expenses, that they relate to approved business travel or approved entertainment activity and are supported by original documents (receipts or tax invoices)
- ✓ Comply with global immigration rules when travelling internationally, and ensure that Employees who report to you also comply
- ✓ Familiarise yourself with local behaviours, practices and customs, and be sensitive to actions or behaviours that may be acceptable in one culture but not in another.

DON'T

- x Accept offers of sponsored travel. In principle, such offers should be rejected; if there is a valid business purpose to attending an event, the Ertech Group will pay any travel, and/or accommodation costs. Where such alternatives are not available, you should refer the matter to the CEO for approval.
- x Downgrade an employee’s class of travel in order to purchase a ticket for a non-employee (such as a family member) at Ertech Group expense.
- x Volunteer for denied boarding compensation from an airline when on business. (However, with an overnight delay due to issues with an airline, it is reasonable to accept offers of accommodation and transfers from the airline to compensate for the need to stay overnight to catch the next available flight).
- x Travel if you have passed the 26-week stage of pregnancy unless you have first obtained written approval from your own doctor.

- x Authorise your own expenses or the expenses of an employee more senior than you unless you are given a specific delegation of financial authority.

BE CAUTIOUS OF

- ! Permitting multiple Employees who are critical to a site, work group or project team to travel together on the same carrier.

4.5 Competition and Antitrust

You must comply with antitrust (or competition) laws that are designed to prohibit a range of practices that restrain trade or restrict free and fair competition, such as price fixing, and acts designed to achieve or maintain the power of a monopoly or cartel. Conduct in breach of these laws is strictly prohibited.

All Employees must understand and comply with the Australian Competition & Consumer Act 2010 (ACCA) which is enforced by the Australian Competition and Consumer Commission.

Breaches of competition laws carry potentially serious consequences for both the Ertech Group and for Employees or other individuals who may be involved. Penalties range from imprisonment in some countries to substantial fines.

The information in this Code is intended only to alert Employees of the need to comply with the requirements set out in the ACCA and to briefly summarise some key aspects of those standards. Designated employees must complete compliance training.

In all cases where further input, guidance or advice is necessary, refer to the CEO.

DO

- ✓ Complete required compliance training
- ✓ Consider the antitrust ramifications when interacting with a competitor
- ✓ Maintain our independence of judgement in pricing, marketing, and tendering. Avoid any action which could imply any coordination with competitors
- ✓ Consult with your CEO:
 - o Before entering any agreement with a competitor
 - o Immediately, and before taking any action if you have any doubts or questions about antitrust issues.

DON'T

- x Act in breach of antitrust (or competition) laws.
- x Agree or reach an understanding with any competitor relating to:
 - o Tender prices and the terms or conditions of sale of a contract
 - o The state of the Order Book
 - o Work in Hand
 - o Customers to whom any services will or will not be sold
- x Communicate in any way with any competitor the following, unless it is already publicly available:
 - o Negotiations with customers or suppliers or general negotiation strategies
 - o Terms of trade, including but not limited to, prices
 - o Tender pipeline, Work in Hand or marketing activities.
 - o Previous, current, or future business activity levels or market conditions.

4.6 Maintaining Supplier Relationships

Supplier relationships can make a significant contribution to the success of the Ertech Group. We aim to have effective, streamlined processes with suppliers, and encourage suppliers to adopt standards and procedures similar to ours.

All Employees must understand and comply with our [H-MGT-POL-008-Supplier Management Policy](#), and [H-PRJ-PRO-036-Procurement and Vendor Management procedure](#).

Through their actions, suppliers can directly impact the financial performance and profitability of the Ertech Group, as well as adding to, or detracting from, its reputation. Wherever possible, we seek to establish a collaborative relationship where suppliers can be viewed as partners.

We take great care in operating a fair and equitable procurement process. Our selection process aims to clearly inform potential suppliers of our expectations, policies, procedures, and requirements of them.

In general terms, we seek suppliers who share our commitment to:

- Lawful business practices conducted according to a high standard of business conduct
- Management practices that respect the rights of all Employees and the local community
- Minimising the impact on the environment
- Providing a safe and healthy workplace
- Meeting the requirements of the Modern Slavery Act.

If there is any doubt or concern in relation to the supplier or potential supplier’s integrity or ability to perform the contract, you should ensure that these issues are resolved. This may require that you raise these issues with your supervisor or manager.

All procurement decisions should be based on the best value received, taking into account the merits of price, quality, performance and suitability.

DO

- ✓ Seek to obtain a competitive bid
- ✓ Prior to entering into a contract or commitment with a supplier:
 - Conduct an appropriate risk assessment and commercial review, including an assessment of the potential supplier’s HSE performance, reputation, conduct, probity, qualifications and experience, creditworthiness, adherence to the requirements of the Modern Slavery Act and ability to meet applicable Ertech Group standards
 - Obtain all appropriate internal approvals, including formal approval as an Approved Supplier.
- ✓ Ensure that a formal agreement is in place that clearly states the services or products to be provided, the basis for earning payment, the applicable rate or fee and other requirements in accordance with the Procurement and Vendor Management procedure.
- ✓ Conduct regular reviews of supplier relationships to ensure performance
- ✓ Verify that invoices clearly and fairly represent goods and services provided
- ✓ Make payments only to the person or organisation that actually provides the goods or services. Payment must be made in the supplier’s home country, where it does business or where the goods were sold or services provided, unless approval is obtained otherwise from your CEO.
- ✓ Help our suppliers understand Ertech Group compliance and business conduct requirements
- ✓ Be alert to and report to your supervisor or manager any activity by a supplier that is inconsistent with our business conduct requirements.

DON'T

- x Use suppliers who supply unsafe or environmentally irresponsible products or services, break laws or regulations, or engage in modern slavery practices
- x Give one supplier’s confidential business information (for example, proposed rates, winning bid information and the like) to another supplier
- x Agree to a contract or commitment that includes a reciprocal agreement or exchange of favours.

5 Working With Integrity – When Using Business Resources

5.1 Protecting Ertech Group Assets

All Employees are responsible for safeguarding and appropriately using Ertech Group assets under their control. Ertech Group assets must not be used for personal benefit.

Employees must comply with the [H-MGT-POL-045-ICT System Usage Policy](#) and the [H-MGT-POL-010-Asset Management Policy](#). Ertech Group assets may include property, time, proprietary information, corporate opportunities and funds, as well as equipment used by individuals, such as mobile phones and computers.

Appropriate precautions should be taken to prevent theft, damage, misuse, or intentional damage of such assets. This includes not allowing Ertech Group resources to be destroyed, disposed of, sold, loaned, or donated without appropriate approvals, unless the items are of nominal value and can no longer be used by the Ertech Group.

To reduce the opportunity for misuse of Ertech Group resources, all Employees must adhere to applicable approval requirements. To further reduce the risk of erroneous or inappropriate actions, the Ertech Group also endeavours to ensure that particular tasks and the responsibility for the review and approval of such tasks are segregated between different members of staff. In principle, an individual should not be in a position to initiate, approve and review the same action or decision.

At all times Ertech Group funds should be used properly, sensibly, and effectively, and appropriate and accurate records kept.

While in the workplace, you are expected to be fully engaged in your work and not undertake personal activities beyond a very modest level. You are required to record the hours you work truthfully and accurately.

You also have a duty of care to advance our business interests. You must never compete with the Ertech Group or use its property, information, or your position for personal gain.

The Ertech Group also expects you to respect the assets of others, and never knowingly damage or misappropriate the assets of others, irrespective of whether the assets are physical or intangible (for example, intellectual property and confidential information).

DO

- ✓ Take care to prevent waste, loss, damage, misuse, theft, or misappropriation of Ertech Group assets
- ✓ Record work time, financial transactions, and other business information accurately
- ✓ Comply with applicable Ertech Group requirements and laws regarding the use, and transfer, of our assets
- ✓ Ensure third parties follow established guidelines and procedures when dealing with our assets
- ✓ Make sure you know what to do if an emergency occurs at your workplace and that visitors are familiar with emergency procedures
- ✓ Prevent non-authorized personnel from accessing our facilities
- ✓ Lock or appropriately protect unattended Ertech Group buildings, storage areas, vehicles, and equipment.

DON'T

- ✗ Use our equipment or facilities for personal activities, except as otherwise specifically allowed in this Code or in other very limited circumstances where you have obtained prior approval
- ✗ Use our equipment or facilities to access offensive material, such as (but not limited to) pornography
- ✗ Permit unauthorised entry to an Ertech Group facility
- ✗ Duplicate keys to an Ertech Group property without appropriate authorisation
- ✗ Ignore security complaints or inadequate security procedures or practices that may present safety threats to either our people or our assets; immediately raise the matter with your supervisor or manager.

BE CAUTIOUS OF

- ! Inadequate security procedures or practices that may present safety threats to either our people or assets
- ! A visitor at an Ertech Group facility not wearing an appropriate security badge; discuss the matter with the individual or alert your supervisor or manager.

5.2 Accuracy of Records and Reports

All data created and maintained by Ertech Group employees must accurately reflect the underlying transactions and events. Falsifying, concealing, altering, destroying, or otherwise tampering with information, or creating misleading information will not be tolerated by the Ertech Group, and may also be illegal.

You must comply with the [H-MGT-POL-014-ICT Information Management Policy](#).

Reference to ‘Ertech Group data’ in this section includes any data or information concerning the Ertech Group or its business activities, whether financial or non-financial and in whatever medium it is held (for example, paper, computer, or other electronic medium).

We will comply with all applicable accounting and financial reporting rules, laws, and regulations in each jurisdiction in which we operate.

All transactions must be properly authorised and accurately and completely recorded in the relevant accounts and records as required by law and applicable Ertech Group requirements.

Once created, data must be appropriately retained and disposed of according to the Ertech Group information management practices and applicable laws and regulations

Employees responsible for the accuracy of financial reporting have an additional responsibility to ensure that adequate internal controls exist to deliver accurate, complete, consistent, timely, and understandable financial and management reports. The applicable reporting standards as set by Group Finance must be followed at all times. Compliance with the above requirements is mandatory and is audited. If you have any concerns about the validity of any financial process or record-keeping activity or believe you are being asked to create false or misleading information, you must immediately report these to your supervisor or manager.

There is never a justification for falsifying records or misrepresenting facts. Such conduct may constitute fraud and can result in civil or criminal liability for you and for the Ertech Group.

DO

- ✓ Keep accurate, complete, and true books, records, accounts, and documentation in accordance with generally accepted accounting principles and our internal procedures
- ✓ Protect our records from unauthorised access or interference
- ✓ Ensure that no undisclosed or unrecorded account, fund or asset is established or maintained
- ✓ Cooperate fully with our internal and external auditors
- ✓ Immediately report any actual or suspected irregularities or weaknesses in relation to auditing, accounting, or internal control matters
- ✓ Demonstrate integrity in submitting and approving expense claims
- ✓ Retain documents and records in accordance with the applicable laws and our information management procedures
- ✓ Return or transfer the custody of all relevant records if you leave the Ertech Group.

DON'T

- ✗ Commit the Ertech Group to contractual obligations that are beyond the scope of your authority
- ✗ Deliberately falsify any record or make a false or misleading entry (financial or non-financial) in a report (internal or external), record or expense claim, inclusive of test results.
- ✗ Circumvent review and approval procedures
- ✗ Influence or allow others to do anything that would compromise the integrity of our records or reports
- ✗ Conceal or tamper with our records or documents.
- ✗ Edit or change information on signed documents without the explicit approval and notation by the signatories.

BE CAUTIOUS OF

- ! Reports prepared by third parties but not received from the original source.
- ! Financial results that seem inconsistent with underlying performance
- ! Inadequate routines and controls to preserve documents (including electronically stored information)

- ! Disposing of documents and records without knowing what is being discarded or whether they must be kept for legal reasons.

5.3 Information Systems

Computer hardware and software and all data on the Ertech Group information systems, as well as any Ertech Group data on your home or other digital systems, are the property of the Ertech Group. Our information systems should always be used in a responsible manner.

Employees must comply with the [H-MGT-POL-014-ICT Information Management Policy](#).

Employees have access to a wide range of Ertech Group Information and Communications Technology (ICT) and communications systems to assist them in performing their jobs. Such systems and the data created or stored on them are regarded as our property. All hardware, software and data must be adequately safeguarded against damage, loss, theft, alteration, and unauthorised access.

Unauthorised use, duplication, or sale of software or media files (including portions of audio, video, electronic images and off-the- internet or off-the-air recordings) is prohibited.

The use of Ertech Group ICT systems is logged. IT is also monitored and audited for the purposes of information security, operational management, and cyber-crime, and to ensure it is compliant with laws, regulations, and our policies.

To the extent permitted by law, the Ertech Group reserves the right to monitor or audit employee use of its ICT systems, and access, review and disclose data stored on our systems for maintenance, business needs or to meet a legal or policy requirement.

Inappropriate material is not permitted to be accessed by using, or stored on, our systems in any form. In the event that inappropriate material or other behaviour that is inconsistent with our policies and procedures is identified, disciplinary action, including dismissal, may be taken and local management may notify civil and/or criminal authorities. Inappropriate material includes pornographic or sexually explicit or exploitative images or text; materials promoting violence, hatred, terrorism or the intolerance of others, and any material that is obscene and abusive.

Appropriate modest personal use of Ertech Group ICT systems is permitted.

DO

- ✓ Advise your IT representative of inappropriate unsolicited material, for example, spam.
- ✓ Ensure hardware, software, and data for which you are responsible is appropriately safeguarded
- ✓ Treat emails and other electronic forms of communication as official Ertech Group records.

DON'T

- x Engage in unauthorised use, duplication or sale of software or media files
- x Engage in on-line fraud or commit a cyber-crime
- x Deliberately access, store, send, post or publish inappropriate material, or ignore others doing so
- x Install software or connect hardware without licence and authorisation
- x Upload or download or send material that is likely to cause annoyance, inconvenience, or needless anxiety to your colleagues
- x Disable Ertech Group security measures.

5.4 Communicating Externally

Public disclosures must only be made by authorised spokespersons.

Employees must comply with the [H-MGT-POL-006-External Communication Policy](#).

Only authorised persons may speak to the media or an external forum on matters relating to the Ertech Group.

Any presentations to external conferences or forums must be approved by the relevant business CEO.

DO

- ✓ obtain all relevant approvals prior to publicly releasing material
- ✓ Report the loss or theft of Ertech Group information (for example, your computer, or briefcase) to your line manager immediately.

DON'T

- ✗ Disclose information to the public – including, but not limited to, the media and members of the investment community – unless you are specifically authorised to do so
- ✗ Divulge what may be confidential information – either internally or externally – unless you are specifically authorised to do so. If you are unsure about the degree of confidentiality assigned to information, contact the relevant manager.

BE CAUTIOUS OF

- ! Placing comments and personal opinions on social media forums that reflect information not publicly available about the Ertech Group.

5.5 Intellectual Property

Intellectual property (IP) can be an invention, trademark, original design or the practical application or expression of a good idea that has commercial value. All Employees must work to safeguard the Ertech Group's intellectual property from use by outsiders.

All Employees must comply with the [H-MGT-POL-009-Intellectual Property Policy](#).

IP is property in the same way as physical assets belong to the Group. It is often highly valuable and, as markets become increasingly competitive, protecting our intellectual property is essential. Because it has been developed by the Ertech Group, it may have a right to protection under law relating to copyright, patents, trademarks, and the like.

Relevant types of IP:

- Copyright for original material in customer lists, reports, geological interpretations, methods of work, internal guides, multimedia, and computer programs
- Patents for new or improved processes
- Database extraction rights
- Confidential or 'trade secrets', including know-how and other confidential or proprietary information.

You must protect IP in the same careful way that other Group property is protected and never disclose our intellectual property and other confidential information. These obligations apply throughout your employment and continue after your employment ends.

On occasion we may need to share our IP with persons outside of the Ertech Group – for example, to allow a third party to work effectively with us. Even when there seems to be a legitimate reason to do so, you should never disclose such information without management's prior approval and then under a written confidentiality agreement.

DO

- ✓ Regard the information obtained by participating in the development of processes for the Ertech Group, or the results of such work, as the property of the Ertech Group both during and after your period of employment with the Ertech Group
- ✓ Inform the Ertech Group of the results of all work done during or outside of working hours that relate to our business or operations. The Ertech Group is entitled to the exclusive benefits of any patents, copyright and the like relating to, or resulting from, this work. Employees may be required to enter into confidentiality agreements or to assist the Ertech Group in obtaining patents, copyrights, or other protection in the name of the Ertech Group
- ✓ Check that there are no third-party IP rights that may prevent the deployment of new technologies or processes.

DON'T

- x Load any unlicensed software on any Ertech Group computer
- x Accept or use anyone else's confidential information, except under an agreement approved by the CEO
- x Bring to the Ertech Group any confidential information, including computer records, from prior employers
- x Use copyrighted materials or third-party trademarks (for example, portions of audio, video and off-the-internet or off-the-air recordings) in materials you are producing, including internet or intranet sites, without permission from the copyright owner. Consult your manager on whether 'fair use' may allow the use of brief excerpts
- x Deploy or use new technologies without first ensuring that you do not infringe a third party's IP rights.

BE CAUTIOUS OF

- ! Copying documents and materials not produced internally (including computer software) unless you have specific permission from the copyright owner to do so.

Please sign and Return this Page to Human Resources

I have received a copy of the Ertech Group Code of Business Conduct (Our Code).

I have read and understood the content fully.

I undertake to retain this book and refer to it from time to time to reinforce my understanding of what is required of me.

I undertake to seek further clarification from my supervisor on any issue I do not understand.
